Obtaining an SAP NetWeaver Developer User License in order to complete the JAVA-EE-NW 7.4 certification scenario based on SAP NetWeaver 7.4 SPS03 (SAP JAVA HANA enabled)

Bernhard Weiss

Joined SAP in August 1989. He currently works for the Integration and Certification Center at SAP in Walldorf, Germany

(*Complete bio appears on page 3)*

Short Introduction

Please read the information below related to SAP NetWeaver Developer licensing which are required to be licensed prior to conducting a **JAVA EE-NW 7.4** based deployment certification with SAP SE.

With the JAVA-EE-NW 7.4 certification scenario, **at least one** SAP NetWeaver Developer User license per developer in your team will be mandatory in order to go through the certification process. Upon request, SAP can check if your company already has purchased named developer user licenses before you begin with your integration work.

What benefits do I get with the license?

Having the proper development environment installed before, during, and after successful deployment certification enables you to support your product running on the SAP NetWeaver 7.4 platform and also entitles you to have access to the SAP support infrastructure.

SAP support can be used to resolve technical issues encountered within SAP software or to obtain newer SAP support package stacks as they become available. For example, when you purchase a SAP NetWeaver Developer User license, you will:

1) Have access to the SAP support portal on the SAP Service Marketplace. For example, in the SAP Support Portal, SAP customers can obtain their software via download, and also have access to other important information related to SAP software.

2) Request a development name space for your Java development.

3) Have access to valuable information regarding SAP SLD (SAP System Landscape Directory).

4) Have access to SAP supported software covered under your license agreement.

5) Have access to SAP support packages as they become available.

6) Have access to SAP notes (they help you to analyze and solve technical problems).

7) Have the capability to open up a trouble ticket and submit it to SAP support in order to resolve SAP errors.

Obtaining a SAP NetWeaver Developer User License
JAVA-EE-NW 7.4 certification based on the SAP NetWeaver 7.4 EE 5 Java Application Server

8) Have access to information regarding the SAP Service- and Support Infrastructure.

Where can I obtain an SAP NetWeaver Developer User License?

Kindly send the following data to **icc-info@sap.com**.

1) What is the number of total developers with SAP expertise?

2) How many of these developers need access to this development environment?

3) Who will conduct the SAP NetWeaver installation?
Name:
Phone:
E-mail:

4) Where is the installation location? The location of the installation should be the same location as the contractor/payer. If this is not the case, please specify why it needs to differ.
Company name (full legal name):
Address:
Phone:
VAT no. (Europe and Americas):
Homepage:

5) Database information.
Option a)
You will be using an existing (valid) database license suitable for SAP systems which you purchased from the database vendor directly. No additional fees charged by SAP SE apply. If this is true, please specify the
- database name:
- operating system:

Option b)
You do not yet have a valid database license and would like to purchase SAP MaxDB from SAP SE. If yes, please specify the
- operating system:

You will then receive a formal offer via email (PDF attachment) from the SAP ICC to fill-in, sign and return. The installation number and access rights will then be created for your company and sent to the named contacts.

Where do I find information on what I need to do next?

Download the **java_ee_nw_74.zip** file. Extract the zip file and read the contents of the **README1ST.PDF** file which tells you exactly how to proceed and what needs to be done.

If you need help with installation the SAP ICC offers installation services as well. Please contact icc@sap.com for further information.

After the installation we would be happy to assist you in successfully certifying your EE 5 application on our EE 5 SAP NetWeaver 7.4 platform.
